CHECKLIST

White space review checklist

- [ ] Set consistent margins and padding before placing content
- [ ] Increase line height until text feels comfortable to read
- [ ] Group related items by reducing space between them
- [ ] Surround important elements with generous breathing room
- [ ] Review the layout at a distance to spot cramped areas
- [ ] Document spacing rules in your brand style guide
- [ ] Check that spacing remains consistent across all sections
- [ ] Ensure micro and macro spacing work together
